Grade 7s they are feeling a bit neglected no play this year – and there is no carnival for them to go to – this year don't have these things this year – pac can't throw party – but just for them to be aware that the students are feeling left out –

Volunteers – the school did quite well at track and field meet – however the coaches were quite upset to put mildly perceived parent interference – there was a point this season where the coaches were going to pack it in – parents coming up to the coaches how to coach the team which kids should be used – criticized for every aspect that they are involved in – people would come up to the teachers to say you are paid – not true do not get reimbursed voluntary – know that the teachers were a few weeks ago were the teachers – more so than other years – never happened in the past at seaforth – a few vocal ones – more than a few – one hand best interest of their kids – but so are the kids – ask them to go up to the teachers and thank them for their efforts – rhylin to put into the pac newsletter -
